

Quality Management Policy

Policy Scope

This policy and the subsequent requirements relate to all employees and business functions.

The policy satisfies the requirements of ISO 9001:2015 and it is the responsibility of all individuals under the employment of Argyle North West Construction Ltd to ensure on-going compliance with the relevant procedures.

Senior management team ensure that it is fit for purpose and identify how it will evolve and develop as an integral part of the business operations.

At Argyle, the support of our employees is vital to ensuring the business operates in a responsible manner within relevant legislative requirements, company procedures, applicable standards and contractual arrangements.

We are completely committed to empowering our people, encouraging them to reach their full potential, and to delivering outstanding quality to all of our customers.

Leadership

Leading by example, management across the organisation take an active role in the Plan, Do, Check, Act process to ensure continual business improvement through strong leadership. Management reviews are completed on an annual basis using the management review agenda. This is formally recorded and attended by business leaders and senior management.

Management review outputs are utilised to determine the objectives and targets for the following year to drive continual business improvement.

Customer Requirements

Our tender and bid processes ensure that customer requirements are clearly understood and are delivered to specified standards, in line with our commitment to delivering quality.

Procedures for completion of works are in place to ensure that, feedback is gained from the client regarding performance on the contract and if applicable, post-delivery meetings are held with the clients and customers.

The work order status is not updated to 'Completed' on our management systems until the final account has been received, to ensure that in work orders remain live until defect free status is confirmed. Warranties are also issued where appropriate and industry standard contracts are executed when required.

Quality Management Policy

Practical Application of the Policy

As part of the Argyle North West Construction Ltd organisation you have a commitment to:

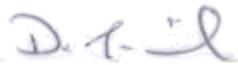

- Comply with all relevant requirements and continually strive to improve the effectiveness of the Quality Management System.
- Identify the risk and opportunities that impact our business and use these to implement improvements.
- Ensure that the work delivered for our customers fully satisfies their requirements and that outcomes are monitored and measured.
- Maintain the level of appropriate training and competence of all staff involved in delivering quality improvements.
- Ensure works are completed in compliance with defined standards and our internal procedures.
- Develop defined communication channels and establish review meetings.
- Measure and analyse data in a positive manner and use these results to continually improve the Quality Management System.

Our Directors and management teams are committed to the maintenance and continual improvement of our Quality Management System. Responsibilities and authorities are assigned to each functional position within the business to ensure that the Vision, Mission Statements and Policies are understood and adopted by the relevant teams / departments.

Responsibilities

All staff are responsible for ensuring that the minimum standards established within this policy are adhered to in line with their specific roles and responsibilities.

This policy statement forms part of the Quality Management System. It will be reviewed at regular intervals and be communicated to all employees and interested parties as required. It is the responsibility of all employees to ensure compliance with the relevant business policies, procedures and processes. The board takes an active role in reviewing key management information to ensure that risks and opportunities are identified, and suitable actions are taken to facilitate business improvement.
